Brothers are Irmin and Andrej Imamovic, also known as Kondenzator and D Liner, two brothers who share the same love for old skool and contemporary sounds of House music. Brothers For Real is their new project started in 2008, meant as an outfit for all their groovy sound needs. Their debut release "We Care About You" is out now on their home Circuits Records. Brothers play as DJs but they also perform as Live Act, which was already rocking the clubs way before their first release was scheduled. Their Influences range from legendary sounds of Acid and Chicago House to Minimal and Deep House sounds of today. Their music, Dj or Live sets are made for dancing, but are also exploring dancefloor limits.

Their first EP features two tracks, " My Bubble Bath", spacey 4/4 track with tight bass lines, deep sounding and slightly distorted Rhodes Piano stabs, reverbed percussions, claps, and other ingredients needed for a solid club track. While piece "We Care About You" is a melancholic but, at least we believe, optimistic track, with tight beat and all sorts of atmospheric sounds. You can expect follow up to this EP soon on Circuits.
