ARTIST: Brothers For Real

TITLE: Parklife EP

RELEASE DATE: 12 February 2010

Track list:

01. Walk The Line

02. Parklife

03. Parklife (Home Boy Remix)

Brothers are Irmin and Andrej Imamovic, also known as Kondenzator and D Liner, two brothers who share the same love for old skool and contemporary sounds of House music. Brothers For Real is their new project started in 2008, meant as an outfit for all their groovy sound needs. Their debut release "We Care About You" is out now on their home Circuits Records. Brothers play as DJs but they also perform as Live Act, which was already rocking the clubs way before their first release was scheduled. Their Influences range from legendary sounds of Acid and Chicago House to Minimal and Deep House sounds of today. Their music, Dj or Live sets are made for dancing, but are also exploring dancefloor limits.

Their second EP "Parklife" features two tracks and one remix. First track "Walk The Line" is an old skool house 4/4 piece, with sampled "live" bass, duby stabs and reverbed string lines. "Parklife", on the other hand, is a contemporary House cut, with melodic bass, dreamy pads and groovy flow. Home Boy's take on the same track is a beautiful Disco/House mix, with pitched vocals and melodic sounds of retro hardware that we all love.
